The International Stefan Banach Prize for a Doctoral Dissertation in the Mathematical Sciences is funded by Ericpol Sp. z o.o. and is awarded by the Polish Mathematical Society. This endowment reflects a leading Polish IT company's appreciation of the crucial role played by mathematical reasoning in contemporary technology and culture.
Its aim is to promote and financially support the most promising young researchers in the mathematical sciences.
Stefan Banach – the famous patron of the prize – symbolizes the values of hard-work and determination; owing to his talent and inner-strength, Banach rose to prominence as one of the most respected mathematicians in the world.
